Dear Mr. Stacey,

No river in Connecticut should be condemned to a "Class 4" status, especially the Quinnipiac river which has seen so many efforts by various groups to revive it.....Even your Dept. of Environmental Protection deemed it a "wild and natural" (protected) trout stream. I am in favor of classifying rivers and streams but am opposed to any river being "written off" to a class 4 status.

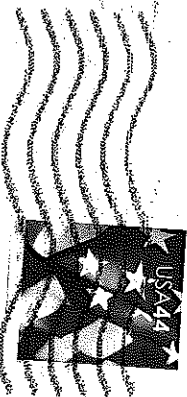

Sincerely,

  
James Lasek
